OKLAHOMA COUNTY VOTE**BELOW REGISTRATION TOTAL**

(By the Associated Press)

OKLAHOMA CITY, Aug. 9.—Only 37 percent of the qualified voters of Oklahoma county, exercised their right of suffrage in last compilation of the county election board. In the senatorial races 26,335 votes were polled, 20,677 in the Democratic and 5,658 in the Republican primary. There are about 70,000 registered voters in the county.

BROWN AND RED TWEED FASHIONS PRACTICAL COAT

Much as we dislike the thought of Fall and cold it is wise to take some thought for the morrow and see what fashion has in store for us to wear. This coat of English tweed in brown and red plaid is practical and smart.

Mr. and Mrs. J. L. Meaders and daughter, Laura Bell, of McAlester are visiting Mrs. Meaders parents. Mr. and Mrs. C. A. Powers, 215 E. Twelfth street and other relatives.**ARKANSAS GUEST HONORED WITH BRIDGE PARTY**

Mrs. Herbert Cooper, of Helena, Arkansas, who is visiting her parents, Mr. and Mrs. Bent Mason, South Broadway, was complimented Thursday evening with a ten table bridge party by Mr. and Mrs. Ben McKinley and Mr. and Mrs. M. C. Wilson in the Wilson home on South Townsend.

Guests were received by Mrs. John McKinley and Mrs. Claude Rodarmel.
A color motif of pink and yellow predominated in the house decorations and the basket of "glads" used for centerpiece in the dining room and the ices and punch served by Mrs. Fred Orr and Miss Dorothy Duncan.

High scores were made by Mrs. L. P. Sandbach and Mr. E. C. Burton. The honoree was presented a dainty guest gift.

Miss Wenonah Rodke Honored

Mrs. Austin Bailey gave a swim party last evening for her sister, Miss Wenonah Rodke of Pauls Valley who is here on a short visit. The invited guests gathered at the home of Mrs. Bailey. From here they went to Glenwood pool for a plunge, after which they were served with a well prepared picnic lunch by Mrs. Bailey and Mrs. W. B. Jones.

Those invited were: Misses Eleanor Kearns, Dot Davis, Madeline McInroy, Margaret Meaders, Corine Carpenter, Rose Mary Hill, Leona James, Lorena Bailey and the honoree, Miss Wenonah Rodke.

CUDD ANNOUNCES FIRST MEETING OF ADA HI BAND

B. K. Cudd, of the High school faculty announces the first meeting of the band for Tuesday evening at 7:45.

This band, Mr. Cudd declares will be made up of the high school students with the idea of serving the community in any way that is desired.

All of the members of the band last year, with the exception of four or five, will be in their places which will add to the opening work for the beginners. Instruction and music are furnished free to students. Instruments must be furnished by the students.

The Ada High school band has always maintained a high standing in this district and made favorable records at the state meet at Norman on several occasions and it is the desire of those sponsoring this department that this standing among the other high school bands of the state raised in proportion to the amount of the support given it by the community.

Every member come Tuesday evening, Aug. 12. Bring instrument and music.

Wilson is Elected

ATLANTIC CITY, N. J., Aug. 9.—James Wilson of Cincinnati president of the international league of pattern makers today was elected vice president of the executive council of the federation of labor to succeed Joseph Valentine also of Cincinnati, and president of the international molders union whose resignation from the council was accepted yesterday.

CHURCH NOTES**First Methodist Church**
Sunday school, 9:30 a. m.
Morning service, 10:55.
There will be no evening service. You are cordially invited to attend these services.
Regular services, morning and evening, will be resumed on Sunday August 24.—R. T. Blackburn.**First Baptist Church**
Clyde Calhoun Morris, Pastor
Our Sunday school meets at the church at 9:45. The Men's Bible class meets at the McSwain Theatre at 9:30. Mr. Ellison will teach the lesson. All men are cordially invited. Mrs. Hickman's class will meet at the Convention Hall. This class is for young married ladies.
Prof. Hickman's class has combined with Mrs. Morris' class and will meet at the church. This class is for young ladies.
The morning service begins at eleven o'clock and the pastor will preach on the subject, "A Farmer Who Saved a Nation." This is a continuation of the series on Old Testament characters. The B. Y. P. U. will all meet at 6:45. Mrs. Hynds has returned and will meet the Blue and Gold union. The Seniors, Intermediates, and Juniors will all meet at the same hour.
The evening service will begin at 8:15. The pastor will preach on the subject, "Are we living in the last days?" We will study together present day conditions throughout the world in the light of the Bible. You are cordially invited to all our services.**First Christian Church**
(Underdenominational and Nonsectarian)
Bible school at 9:30 a. m. Mr. C. E. Cuning, superintendent.
The Men's Bible Class will meet at 9:30 a. m. in the banquet room of the Harris hotel. Dr. A. Lin-scheid, teacher.

Nurserymen to Meet

(By the Associated Press)

DURANT, Okla., Aug. 5.—The Oklahoma Nursery association, with more than 100 members will hold its annual meeting here August 22 and 23. Several leading nurserymen from several parts of the country will be present to address the Oklahoma nurserymen. T. B. Gordon, state etymologist, is on the program.

Oklahoma nurserymen are seeking the annual convention of the Southwest National association which meets in Dallas this year, and plans for the campaign to obtain next year's meeting will be outlined at the convention here. W. R. Rey of Oklahoma City is president of the state association.

The word tobacco is derived from "tobacco," the tube or pipe through which tobacco was smoked by the natives of Central and South America.

Wednesday and Thursday

KIWANIANS TO DISCUSS DISTRICT CONVENTION

Plans for attendance at the district Kiwanis convention at Lawton September 1 and 2, will be discussed Monday noon at the regular luncheon of the Ada Kiwanis club.

The district meeting will bring representatives of all Kiwanis clubs in Texas and Oklahoma to Lawton and will give Kiwanians in general a better opportunity to get in touch with the progressive steps being taken by the club.

According to officials of the club, several Ada Kiwanians will attend the convention at Lawton. The Ada delegation will form a motor caravan to the Convention City.

The Kiwanis club will also boom its attendance contest now being conducted between the Ki Wa and Ki Yi factions of the club. Both sides are about even at the present time and every effort is being made by both factions to put the other side away and thereby win the privilege of being guest to the Kiwanis Stag Banquet, New Year.

The regular club luncheon will be held in the Episcopal church Parish house and will be prepared by the ladies of the Episcopal guild. The club has pledged 30 plate for the luncheon.

Alfred Summer was in from Maxwell Saturday. He says that although his community was needing rain, crops promised more than they did last year.

ruined

Many a first impression has been ruined by some seemingly little thing

It pays in life to be able to make people like you. And so often it is some seemingly very little thing that may hold you back.

For example, if a person's teeth are unclean, you will automatically hold this against him. And all the while this same analysis is being made of you.

Listerine Tooth Paste cleans teeth a new way. At last our chemists have discovered a solidifying ingredient that really cleans without scratching the enamel—a difficult problem finally solved.

A large tube of Listerine Tooth Paste is only 25 cents; at your druggist's.—Lambert Pharmacal Co., Saint Louis, U. S. A.

Hot Weather Needs Begin the Week at Shaw's at Special Price Inducements

The vacationist or the stay-at-home will undoubtedly find many interesting articles here that will greatly mitigate the sweltering hot August.

BIBLE THOUGHT FOR TODAY
REMEMBER THE SABBATH DAY, TO KEEP IT HOLY.—Exodus 20:8. GO TO CHURCH SUNDAY.

THE WORK OF RIGHTEOUSNESS shall be peace; and the effect of righteousness, quietness and assurance for ever. And My people shall dwell in a peaceable habitation, and in sure dwellings, and in quiet resting places.—Isaiah 32:17, 18.

The case of prophet Jonah is a striking example of a man who could not get away from a disagreeable duty. Perhaps Jonah thought the Lord might have sent some one else into the great city of Nineveh to warn its inhabitants of their impending doom, but the task was his and in the end he had to go. However, as a general thing it is not necessary for one to leave his own community to find work that needs to be done. On every side one who has a desire to help his fellows can find plenty to do but generally it is just about as disagreeable as was Jonah's mission to Nineveh. Nineveh repented as a result of his warning and was saved for the time being, but if Jonah was given any credit for his timely warning, there is no record of it. The person who is really in earnest about helping his fellows as individuals or as a community is doomed to disappointment if he expects any gratitude, but this should not turn him from his path of duty. The pearls cast before the swine were not appreciated by the animals, but they remained valuable gems just the same.

One of the greatest steps along educational lines ever taken by Oklahoma was the establishment of the traveling library. Under this plan any community can secure a large number of books without any cost except transportation charges and when that lot of books have been read by the community another set can be ordered. Thus the best books are within reach of everyone even though unable to buy them for the home library. A number of communities in Pontotoc county have taken advantage of these libraries during the past year or two and the movement should by all means be pushed in every district. Information can be had by writing to the state library commission, Oklahoma City, or by seeing Supt. Floyd.

While the continued dry weather in parts of Pontotoc county is indeed discouraging, it is now almost certain that the corn crop will be considerably larger than that of last year and that cotton will also turn out much better. A bumper crop was never needed worse than now, but with even a fair crop and good prices conditions will improve greatly. The cotton crop has been hurt little by the weevil this year and it is certain that the crop of a little more than 8,000 bales ginned in Pontotoc county last year will be doubled this season.

And now it is announced that a conference on interallied debts is soon to be called. This is a subject in which the United States is deeply concerned for European nations owe the United States several billions of dollars borrowed to carry on the war against Germany. Some few have already arranged with this country for a gradual wiping out of their debts but France and some others have taken no steps in that direction. No doubt an effort will be made to have this country cancel part of these debts, but thus far the American government has held firm for payment in full.

The prohibition issue is now being debated in Great Britain. That nation has always been closely wedded to its booze and when Pussyfoot Johnson tried to make a prohibition speech a few years ago the crowd knocked one of his eyes out. Now, however, the dries are being heard in increasing numbers and the fight that was waged in the United States for half a century before prohibition was adopted is under way in the British isles. It is not to be expected that the dries will win in the immediate future but eventually they will carry the day just as they did in the United States.

Tom McKeown carried every county in the district in his race for congress, winning by a plurality of 6,000 or better. This is a pretty fair evidence that the people are well satisfied with his work and are unwilling to dispense with his services for sometime to come. His constituents showed their unwillingness to experiment with a new and untried man, although they had the choice of three of this class.

A resume of the cotton situation in the Dallas News indicates that the yield in most of Texas, especially in the black belt is still somewhat uncertain, most places needing rain to round out the crop. Meantime the price is more than five cents a pound above last year's price at this time. If it stays up Pontotoc county bids fair to get in quite a few more dollars than it did last year, since reports indicate a better yield.

The recent primary without doubt relegated T. P. Gore to political oblivion for all time to come, so far as Oklahoma is concerned. Two big defeats will convince him that times have changed in Oklahoma.

AN ANCIENT MARRIAGE.

A marriage has in all ages been considered a time of rejoicing and among the ancient Hebrews we find such occasion mingled solemnity and merrymaking. As in our own day it was an occasion for a feast.

Such an event took place in Cana of Galilee shortly after Jesus returned from the region of his baptism and temptation. He had already begun his mission and several disciples had answered his summons to service. Some critics might have thought that the Saviour could have employed his time to better advantage by refusing an invitation to the wedding and spent the day in preaching. However, he had a lesson to teach that would be heard of as long as time endured, hence we find him among the guests assembled. The names of the contracting parties are lost to posterity, but they little dreamed that their marriage would be a topic of interest for thousands of years. The first lesson Jesus desired to teach was that no one should shut himself away from his fellows. From the beginning he rejoiced with those who rejoiced and wept with those who were stricken with grief as he did at the tomb of Lazarus later in his career. No doubt the happy young couple had been his friends from early youth and he willingly accepted an invitation to join them in the celebration of their wedding.

Again the time had come for him to manifest his power and the opportunity was presented here. When the supply of wine exhausted and the family likely to be placed in a most humiliating position, perhaps exposing their poverty, he was ready to assist. There is no record of any miracle performed by him that was not in the nature of assisting some one in distress. He never played to the galleries, as we would say today, by doing spectacular miracles for the mere purpose of impressing the people with his own importance or power. This was demonstrated on the final day of his life when Pilate sent him to Herod. He had once healed a servant of Herod of a grievous malady and being aware of this and of other miracles, Herod tried to induce him to perform one to satisfy the curiosity of himself and his courtiers, but failed.

In the lesson of today his mother told him of the predicament of the marriage party. Probably she took him to one side so that the assembled guests might not learn of the state of affairs. She may not have known what he would do but had at all events learned to rely upon him in her daily life to an extent that she knew he would find a way to save the situation. She proved this by instructing the servants to do whatever he ordered. His order was to fill up several stone jars with water. Doubtless the servants thought this a silly proceeding, but they obeyed. Then when at his order they drew out the liquid they found to their amazement that it had turned to wine. This they took to the man in charge of the ceremonies and the feast, and he reproved the bridegroom for his reversal of the custom which was to serve the best wine at the beginning and save the poorer quality until the last.

This occasion has been the subject of much comment by radical temperance advocates and radicals on the other extreme who would find in the scripture justification for drunken orgies. It is certain that Jesus did not approve of drunkenness and that no one was made drunk by the wine he furnished. The following description of a wedding of that day by an oriental authority makes everything plain:

"The ceremony was performed in the 'upper room' of private houses. The betrothed pair stood under a canopy, the bride being veiled, both wearing crowns which were exchanged several times during the ceremony. The officiating minister was not a priest nor necessarily a rabbi, but an elder, who standing behind the canopy holding a cup of blessing, invoked a benediction on the assembly. He then gave a cup of wine to the betrothed, who pledged one another, the bridegroom draining his cup, dashing it to the ground, crushed it with his heel, and swearing fidelity until its powdered fragments should be reunited. The marriage contract was next read and attested by each person present drinking of a cup of wine. The ceremony was concluded by the elder invoking the seven blessings upon them, drinking the benedictory cup and passing it around to the assembly. It was for this cup that our Savior supplied the wine at Cana."

The best of advice and instruction get nowhere with people who are not willing to pay the price of success. To get anywhere means some hard work and hard thinking and not many will do either long at a time. It is much easier to let each day take care of itself but this does not take a fellow very far along the road to success. Furthermore, the hardest of work will not in itself carry a fellow very far, unless he makes it part of a plan for bettering himself in the future.

A story from California laughs at map makers because they still put Lake Tulare on the maps of California when, as a matter of fact, the lake dried up long ago. Well, it took various departments of the federal government a dozen years to find out that the Indian Territory no longer existed, their maps of weather and farm conditions always showing Indian Territory. Perhaps the map makers will some day learn that there is no Lake Tulare.

Politicians may come and politicians may go, but Congressman Charley Carter of Ardmore still sticks and is safe for two more years. He has had many opponents during his term of service which began at statehood, but no man yet appeared who could give him much of a race.

An Air Truce.

(Shawnee News)
It is expected that as soon as the present international conference has settled the German reparation problem, a new conference will be called to consider the limitation of military air fleets.

This is a project in which the United States is much interested and one to which all of the powers, with the possible exceptions of France and Germany, will doubtless be favorable.

It was recognized when the Washington conference limited naval armament, that three subjects of vital importance were left untouched — submarines, land armies and aerial war craft. There is little prospect yet of favorable action to reduce armies as the naval powers have reduced battleships and heavy cruisers. There is some question, too, about the reduction of submarines, because small powers see in them a safe defense against stronger enemies. Air armament seems to offer the best present opportunity for reform, because there is more general agreement about it, and none of the powers except France are yet committed to the huge air fleets they are certain to need if there is no stoppage of common action.

France now dominates the air, and unless something is done about it, England and America will feel obliged to equal or surpass her air power, and Italy, Japan, Germany and Russia will follow, making a frenzied, costly and dangerous competition.

One of the main reasons for broaching the subject now is that Germany, deprived of her army and navy, is striving to recover her military power in the air, and may do so furtively if there is no limitation officially agreed to by her. It is this consideration which may bring France to agree to an all-round restriction.

BUILDING AND LOAN ASSN.

HAVE ASSETS OF \$3,342,530.953

(By the Associated Press)

CHICAGO, Aug. 7.—Assets amounting to \$3,342,530.953 were held by building and loan associations in the United States at the close of last year, according to an inquiry conducted by the American Savings, Building and Loan Institute and announced by the National Association of Real Estate Boards, which is urging their formation.

Aggregate loss from five failures of building and loan associations for the period was less than \$250,000 it was disclosed, or seven-tenths of one percent of the total assets. There were 10,000 associations in existence.

National Recreation Congress

Will Meet at Atlantic City

NEW YORK.—The eleventh national recreation congress will be held in Atlantic City October 16-21, Joseph Lee, president of the Playground and Recreation Association of America, has announced.

Among the speakers will be Theodore Roosevelt, assistant secretary of the navy; Professor Peter W. Dykema of the University of Wisconsin; Lester F. Scott, executive

secretary of the Camp Fire Girls; William E. Harmon and Mrs. Eva W. White of Boston.

I am organizing a kindergarten class in Ada opening September 1st, 1924. Have had special training in this work and three years experience. Charges five dollars per month.

No Admission to Grounds

**CITY SCHOOLS READY FOR
OPENING FOR ANOTHER YEAR;
LIST OF TEACHERS ANNOUNCED**

The public schools of Ada will begin the first semesters work Monday September 8th, according to announcement from the office of the city superintendent of schools. This date is concurrent with the opening of the fall term at the college and is necessarily so on account of the fact that many of the students and teachers of the public schools do work in the summer term of the college. The state department of education has advised local authorities to postpone the opening date to September 15th or later if possible but to do so would result in confusion for those of the public schools interested in the summer term of the college.

Little repairing has been done this year and but little has been necessary on account of the extensive repairing and painting of buildings done last year. However, buildings are being thoroughly renovated preparatory to the opening of school and will be in first class shape at that time. The Ada school buildings are a credit to any city and the school grounds have been kept in such excellent condition this summer as to call forth expressions of admiration from citizens interested in civic welfare as well as beauty.

There will doubtless be more or less of confusion this year on account of books, particularly those on the free list, not being available. There is no assurance that these books will be available by September 15th. In fact, it is altogether probable that the major portion of the free adoption will not be available before October 1st, notwithstanding the fact that Ada's requisition for these books has been on file in the state department of education since early in June. Supplementary texts, however, will likely be available earlier. Book companies, furnishing supplementary readers, for instance, have given local school authorities assurance that all such books will be on hand by September 1st. No announcement has been made as to whether all the books on the free list will be furnished to a part of the grades covered in the free adoption or whether a part of the books will be furnished to all the grades. In either case, all books on the supplementary list are not free and will be furnished by patrons. This list includes all supplementary readers, drawing and writing supplies, tablets, pencils, etc. No books above the eighth grade are on the free list.

Ward School Distribution

When the books furnished by the state are received in Ada, they will be distributed to the ward buildings which are already provided with steel lockers for their safe keeping. When the books are placed at the ward buildings, they will then be ready for distribution to the children under such conditions and restrictions as the state shall specify. The local Board of Education, through its clerk, is under bond for the safe keeping of these books to the amount of \$10,000. If all the books on the free list are furnished to all the children, the clerk of the board of education will be called upon every year to account for some eighteen thousand or more books and will be held directly responsible for their safe keeping, their abuse, their disappearance, their fumigation, etc.

Patrons who may want to purchase books for their children, preferring that their children have their own books rather than use the free books, can secure books through the state depository at Oklahoma City but not through the local depository, unless arrangements are made in the future for local depositories to handle the books on the free list.

A change in books necessitates readjustments in the course of study. For this reason, a revised course of study is in the making and will be available by the time school opens. The state has in process of compilation, also, a new course of study for both grades and high schools. The former may be available early in the school year. There will be no radical changes in the program of studies in the new courses of study.

High School Ready

The High school will continue conservative, will offer courses, meeting college entrance requirements and at the same time will differentiate in courses sufficiently wide to meet the demands of all students. Adhering to its previous policy, but little differentiation in courses will be made below the sophomore year. For the most part, the work of the last half of the eighth grade finds a continuation in the first half of the freshman year in high school. Due entirely to the fact that Ada has no separate plant for a junior high school, under present conditions a reorganization of the course of study on the junior high school plan is an impossibility. For this reason, until an additional building is provided for high school purposes, the course of study will be operated on the 4-4-4 plan rather than the 6-3-3, the departmental plan of work being in operation in all grades above the fourth.

The following is the list of teachers employed for the year 1924-1925 with the assignments to buildings:

High School
K. W. Harris, M. A. Principal.
Mrs. Wilbur P. Lee, registrar and librarian.
James L. German, A. B., head of English department.
Miss Abbie Horne, A. B., assistant in English.
Miss Willie Mae Corbin, A. B., assistant in English.
George L. Dougherty, A. B., head department of science.
Churchill Thomas, B. S., assistant department of science.

H. F. Felix, A. B., head department of mathematics.
Mrs. T. W. Edwards, A. B., assistant department of mathematics.

Ben K. Cudd, A. B., head department of history and civics.
C. R. Cox, A. B., assistant department of history and civics.

J. E. Garrett, A. B., assistant academic department.
John B. Tatum, A. B., head department of foreign languages.

Mrs. Wick Adair, A. B., assistant department foreign languages.
Roy L. McKewen, A. B., assistant department foreign language.

James W. Huff, A. B., head commercial department.
Mrs. Charley Bobbitt, B. S., head department home economics.

Clifton Parker, A. B., head manual training department.
Willard School

A. D. Bolton, principal, mathematics, departmental grades.
Miss Violet Moore, reading and history, departmental grades.

Meaders Jones, English and science, departmental grades.
Miss Viola West, music, writing and drawing departmental grades.

Mrs. Joe Neal, fourth grade.
Miss Catherine Griffith, third grade.

Mrs. H. F. Mathis, second grade.
Mrs. B. M. Bobbitt, first grade.

Irving School
O. M. Kimbrough, principal, mathematics, departmental grades.

Miss Bonnie Mitchell, English and science, departmental grades.
Miss Bernice Hargis, music, writing and drawing, departmental grades.

Jim J. Ragland, history and science, departmental grades.
Miss Hazel Strohm, third grade.

Mrs. Wayne Wadlington, second grade.
Miss Annie C. Lipstrue, B-first grade.

Hayes School
J. H. Hughes, principal, mathematics.

W. P. Williamson, history and reading, departmental grades.
Mrs. Jessie Bagley, music, writing and drawing, departmental grades.

Miss Lois Heard, fourth grade.
Miss Willette Driskell, third grade.

Mrs. F. E. Gray, second grade.
Mrs. Mary E. Tatum, A-first grade.

Miss Kathleen Grant, B-first grade.
Washington School

Arlie D. Patton, principal, mathematics.
Harvey Faust, history and reading, departmental grades.

Mrs. Pearl Overturn, English and science, departmental grades.
Miss Effie Lawson, music, writing and drawing, departmental grades.

Mrs. Annie C. Byrd, fourth grade.
Mrs. J. E. Garrett, fourth grade.

Miss Kathleen Smith, third grade.
Miss Opal Little, third grade.

Miss Frances Skeritt, second grade.
Miss Vera Grant, second grade.

Miss Susanne Holman, A-first grade.
Mrs. M. D. Timberlake, B-first grade.

Glenwood School
Mrs. Mary McKoy, principal, mathematics.

Mrs. J. C. Deaver, English and reading, departmental grades.
Mrs. Madeline Larmer, music, writing and drawing, departmental grades.

C. G. Whitwell, history and science, departmental grades.
Miss Ruby Hawkins, fourth grade.

Mrs. Alvis Tunnell, third grade.
Mrs. George Hansard, second grade.

Miss Mae Bentley, A-first grade.
Mrs. Hala B. Cox, B-first grade.

Separate School.
W. E. Ross, principal.

Bessie Perham, assistant.
Janitors

Darnell Williams, high school.
Lee Hargis, Washington school.

Sam Felton, Glenwood school.
P. S. Cannavan, Irving school.

M. C. Turner, Willard school.
Lee Payne, Hayes school.

Huge Organ to Be Built.
LOS ANGELES, Aug. 5.—What is described as the largest orchestral organ in the world is to be installed in Hollywood Bowl, a natural open-air amphitheater in the foothills of Hollywood. It is said that the organ will have pipes as long as 64 feet, with enough lumber in one of them to build a bungalow and that the vibration in the bass chambers will have so great an intensity that if it should strike a human being, without interfering tones, it would knock him unconscious.

**JACK BENSON BETRAYED
AT OKLAHOMA CITY POLLS**

OKLAHOMA CITY.—Jack Benson has been double-crossed. Not a doubt of it! An irate voter came charging out of a precinct voting place before which Benson was standing.

"Jack, y' been double-crossed. I spent twenty minutes lookin' for your name on that ballot and I couldn't find it. Somebody held out on you!"

Benson looked incredulous for a moment, whispered some instructions to the voter and walked away. Benson is an independent candidate for the United States senate. His election worries don't start until after the primary.

**FUGITIVE BANKER EARNED
LIVING AS CONDUCTOR OF BAND**

(By the Associated Press)

BUDAPEST—Hungarian bankers in prison for losing their clients' money by speculating in French francs were joined recently by Bela Kelemen, who was extradited from Italy.

Kelemen fled to Sicily before his crash became known, disguised himself by darkening his face with powder and earned his living as gipsy band conductor, being an excellent violinist.

His whereabouts were learned when his correspondence with friends in Hungary was opened for censorship, which still exists in Hungary.

Frozen meat first became known to the civilized world when a party of Eskimos brought frozen same in airtight case to Harwich, England, in January, 1816.

Baseball Spell To Last Through September, Said

Ada baseball fans will have an opportunity to see the local club in action until the closing days of September, A. O. Green, manager of the club, stated Saturday.

While games have not been secured for Sunday dates for the remainder of August and September, Green is confident that opponents will be found to appease the sport appetite of Ada fans for the remainder of the season.

In former years the Ada team has played throughout the month of September until the first inkling of football popularity invades the diamond and converts it into a gridiron for the interest of fans until Thanksgiving.

Recently the local squad has stepped into its stride and has been taking everything in its path. Following three victories over the Wilson club, Ada pounded out easy victories over Oklahoma City and Henryetta.

In the game today with Beggs, Ada is confronted with what appears to be a real rival for the state amateur baseball championship. Beggs has played more games than any other team in the state and has won a majority of the contests.

Farmers' Column

By—

Byron Norrell

H. Neal of Portland Park came in Saturday with the biggest peach seen in the News office this season. It is 10 inches in circumference and weighs half a pound. It is from a three-year-old J. H. Hale tree. However, I think I can come mighty close to beating Mr. Neal with a peach from a tree in my wife's back yard and if I do I shall tell about it, otherwise I might as well say nothing.

LATER—I went home and took a look at my peaches but had to give up that Mr. Neal had been bested a fraction.

Bud Trees in August. STILLWATER, OKLA.—August is a favorable month for budding peaches, plums, cherries and apples, says Frank B. Cross, of the horticulture department at Oklahoma A. and M. college.

"If you wish to get some young trees from a good variety of fruit which you have in your orchard, now is the time to do the work," the horticulturist points out.

"Many persons write to the department, from time to time, asking how they may increase the number of trees of some known or unknown variety of fruit which they think is especially good. Usually, this can not be done by growing seed. Therefore, the only method available is propagation by budding or grafting.

"Any person who is careful and painstaking can learn the process and be successful in budding trees. It is suggested that for the busy man a good plan would be to arrange with some local nurseryman to do the work. If you wish to do the work yourself, the department of horticulture will tell you how to do it."

Oklahoma Crop Report

OKLAHOMA CITY, August 9.—WHEAT: Only three times during the last twenty-two years has Oklahoma's yield per acre of wheat exceeded this year's yield. The yield per acre for this year is estimated 15.5 bushels, which promises a total crop of 51,258,000 bushels from an area of 3,264,000 acres. The plentiful storage of sub-soil moisture and the splendid June weather for maturing the grain are the reasons for the final out come of the crop being so much above the early season's promise. The production this year is nearly 15,000,000 bushels more than last year. The quality of this season's wheat crop is excellent, being rated at 96 percent, as compared with 89 last year and 88, the average for the past ten years.

CORN: Prospects for corn production increased 17,691,000 bushels over the July estimate. The condition on August 1 was 80 percent of normal, forecasting a probable yield of 22.8 bushels per acre and a total production of 74,419,000 bushels. The production last year was 57,536,000 bushels. If weather conditions continue normal from now until harvest, our corn crop will probably be twice as much as it was last year. Frequent showers and favorable weather are the reasons for the increase in corn prospects. In the Western half of the State grasshoppers have done considerable damage, however, it is generally believed that the grasshopper menace is nearly past.

GRAIN SORGHUMS: Grain sorghums have improved in all sections. The frequent local showers have been sufficient for good growth. The condition on August 1 was 82 percent of normal. A condition of 82 on August 1 forecasts an average yield of 18.9 bushels per acre, and a total production of 25,272,000 bushels. The production last year was 18,276,000 bushels. In the Northwest, where nearly one-half of the crop is grown, an improvement of 12 points over last month's estimate is shown. The West Central district, which grows nearly one-fourth of the crop, shows an improvement of 7 points. The plant started out late, but the last month has been favorable, and the crop is recovering rapidly.

SWEET POTATOES: The condition of sweet potatoes on August 1 was 76 percent of normal, indicating an average yield of 94.2 bushels per acre and a total production of 2,520,000 bushels, as compared with a production of 2,700,000 bushels last year.

PEANUTS: Peanuts continue in good condition. On August 1 the condition was 81 percent of normal. The forecasted production is 9,379,000 pounds, as compared with a production last year of 9,750,000 pounds.

HAY: Alfalfa has yielded 1.5 tons per acre up to date. A yield of 1.5 tons per acre, based on the total acreage of 384,000, indicates that we already have harvested 576,000 tons of alfalfa hay. The average yield of clover hay to date is 1.1 ton per acre, or a total yield of 6,000 tons to August 1. The August 1 condition of alfalfa was 67, clover 82, all tame hay 76. The condition of wild hay on August 1 was 84, which promises a production of about 485,000 tons.

FRUITS: The condition of apples on August 1 was 60 percent of normal, promising a production of 1,514,000 bushels. The condition of grapes was 80, and the forecasted production, 3,341,000 pounds. The condition of peaches was 82, and the forecasted production, 245,000 tons.

MISCELLANEOUS: On August 1 the condition of cow peas was 87, soy beans 90, small berries 82, melons 80, pecans 68, and home gardens 69.

PASTURE: Pastures have been damaged greatly in the west by the dry weather. In most of the other sections of the State the condition continues from fair to good. The condition on August 1 was 78 percent of normal, as compared with 82 on July 1.

The so-called "laziness" of inhabitants of tropical countries is actually a disease, a medical expert says.

BOSTON PREPARES FOR UNION VETS

Hub City Preparing for Entertainment of Old Veterans

(By the Associated Press)

BOSTON, August 9.—"They shall not walk" has been adopted as a slogan in behalf of the Civil War veterans who, with rapidly thinning ranks but unabated enthusiasm, have thronged this city for the annual encampment of the Grand Army of the Republic. Registration began today and the first business session will be held Monday.

When the national G. A. R. last met in Boston, seven years ago, there were 50,000 men old veterans in the long line of the parade which always has been the feature of these meetings. At that time many observers, watching the halting steps, remarked that this city probably never would see a G. A. R. parade again.

There will be a parade next Tuesday, but it will be over a short route and virtually all of the veterans who will participate, perhaps 8,000, will ride in automobiles. The Boston Motor Club has volunteered its services to act as a clearing house for automobiles during the encampment and hundreds of car owners have agreed to place their cars at the disposal of the veterans, not only for the parade but for getting them about the city during the encampment.

A patriotic service at the New Old South Church tomorrow afternoon will open the reunion. The first business session on Monday will be followed by a meeting in Symphony Hall in the evening at which the veterans will be formally welcomed by Governor Cox and Mayor Curley.

Tuesday will be given over to the parade. Elaborate preparations have been made for the comfort of the paraders. Medical stations will be located at various places along the route. Three hundred Boy Scouts who will act as guides throughout the week, will take up positions at different points provided with drinking water and first aid kits.

Election of officers is planned for Wednesday. During the rest of the week the delegates will be entertained by boat trips to Plymouth and elsewhere, automobile drives, fire works on the Common and a visit to the estate of Miss Mary B. Forbes at Milton for the purpose of inspecting a reproduction there of the log cabin in which Abraham Lincoln was born.

Mayor Curley has arranged to plant a number of trees on the Common during the week, each to be named in honor of some state department of the G. A. R. or some outstanding Civil War figure.

OIL NEWS

Bowles & Smith have made a new location near their discovery well in section 34-5-6, six miles north of Ada, and will begin work on it within a week or ten days. They do not announce the location and state it may yet be changed.

Other wells are expected to be put down in that locality in the near future. The fact that oil is now being marketed will probably cause several offset wells to go down without much delay.

There is more actual development here now than ever before. With possibly one or two wells omitted through an oversight here is a list of the drilling wells:

One west of Ross just across in Murray County, one southwest of Vanoss, two in the Bebee field, two drilling and another to start in a few days on the outskirts of Ada, three east of Ada, one near Francis, one near Stonewall, one south of Ada, one just across the line in McClain county, and several others to begin immediately. This does not take into consideration the number of wells completed and those abandoned. This shows that there is being spent for development in the neighborhood of \$50,000 a month.

With the daily increase in the production of the Cromwell pool storage tanks erected by producers are being rapidly filled up. It is estimated that of the total of storage capacity of 600,000 barrels at least 500,000 barrels of oil are stored.

Tankage is becoming one of the serious problems of Cromwell operators with the rapid gains in production. The total storage capacity of the field, it is estimated, is 750,000 barrels of which 150,000 barrels is represented by stock tanks. Although pipeline facilities have been adequate to handle the current production as it increases a large amount of oil must be run into storage. As a result a new tank building campaign is expected to break out anew to take care of the increasing flow.

GARFIELD FARMERS STORE 10,000,000 BUSHELS WHEAT

ENID.—Probabilities that farmers in this section will store 10,000,000 bushels of Oklahoma's wheat crop is causing considerable concern among local grain dealers. One object of the farmers in storing their wheat is to obtain higher prices. Whether those who hold their grain can acquire enough foothold on the markets to force higher prices is a question that will be decided this fall.

Although many farmers have stored their wheat during the past two weeks, grain dealers reported that many were forced to sell the major portion of their crop to pay production expenses.

How This Store Serves All The Public

There are many ways in which a store may serve the people:

Keeping up the standard of the merchandise is one.

Keeping the prices down to the lowest possible notch is another.

Then there is the duty of selecting the right styles; of providing ample selections; of employing salesmen with taste and intelligence to help you in your purchase; of competent tailors to make the alternations for you.

We are never satisfied here unless every customer goes out of our store with the clothes that are best for them; unless they have received their full money's worth in style as well as quality.

H. J. BROWN THANKS VOTERS OF ADA

FIRE RAVAGING SUBURB OF SALT LAKE CITY

I desire to thank my many friends who again nominated me to the office of Justice of the Peace. I have endeavored to give you good service and the vote indicates that you appreciate my efforts and have confidence in me. Assuring you and all that I shall continue to do my best for you at all times, I am, Gratefully Yours, H. J. BROWN.

A fire, which already is reported to have destroyed one business block at Murray, a suburb about seven miles south of here, is assuming alarming proportions, according to a message reaching this city. No loss of life has been reported nor the origin of the fire determined. Murray has a population of about 20,000.

IRENE RICH AS LOVE-VICTIM IN "BEAU BRUMMEL"

Because she possesses the grace and charm of royalty, Irene Rich, serendipitous woman, was given the opportunity to portray the Dutchess of York in "Beau Brummel," the adaptation of the famous Clyde Fitch play, starring John Barrymore. This Warner Brothers' Classic of the Screen is announced for showing at the McSwain Theatre beginning Monday.

Miss Rich, whose regal bearing and stately beauty bring vividly to mind the thoroughbred aristocrat, has given to her role a sympathetic interpretation of rare sincerity.

As Frederica Charlotte, Dutchess of York, the gracious lady of "merrie olde England," Miss Rich builds up, bit by bit, the portrait of a virtuous wife of pure and noble mien, amiable in every instance to the demands of court life. Protected by her innate integrity and delicacy, she has remained uncontaminated by the prevailing corruption about her, until the elegant Beau Brummel, fascinating in his very egotism and brilliant gallantry, woos and wins her, sweeping away the barriers that separate their love.

But for Beau Brummel, it is the love of an hour, while to the Dutchess of York it means the serenity of her soul and honor. Such is the appealing character played by Irene Rich, that brings new laurels to her long list of triumphs.

Miss Rich is but one of the really remarkable cast that has been gathered together to support John Barrymore in "Beau Brummel," the romantic drama of the ages. Included in the cast are Mary Astor, Willard Louis, Alec B. Francis, Carmel Myers, William Humphreys, Richard Tucker, André de Bergeranger, Claire de Lorez, Michael Dark, Tempair Saxe, Clarissa Selwynne, Carol Holloway, James A. Marcus, Betty Brice, Roland Rush-

FOR SALE

FOR SALE—Young milk cow, call 954. 8-8-2

FOR SALE—Good ripe grapes. Phone 216. 8-6-41

RUTH ACQUIRES ALL HONORS OF LEADERSHIP IN AMERICAN LEAGUE;; HORNSBY IS SUPREME

(By the Associated Press)

CHICAGO, August 9—Having acquired all the batting leaderships in the American League, Babe Ruth is now out after his own personal records and in averages including games of Wednesday was within three home runs of his August standing in 1921, the year he pushed his home run record to 59. The Babe has also crossed the 400 mark in batting for his first time, due to eighteen hits, including four home runs in the past week. His best previous record was 393 for the 1913 season. The four homers raised his total to 36 so far this year.

Ruth has a scoring average of little better than one run a game, as he has played in 107 games and registered 108 times. He has the field to himself in total bases with a total of 292, a result of 147 hits, which beside his four-baggers, include 25 doubles and 6 triples.

Bib Falk of Chicago continues in second place with 382 and Arch-deacon, another Chicagoan is third with 357. Eddie Collins, captain of the White Sox, has the base stealing field all to himself. He is blazing the trail with 31 thefts.

Other leading batters for 60 or more games: Jamison, Cleveland, 346; Sheely, Chicago, 344; E. Collins, Chicago, 343; Cobb, Detroit, 338; Goslin, Washington, 337; Boone, Boston, 335; Hellman, Detroit, 334.

Rogers Hornsby, champion batter of the National League, has been looking at some high class twirling in the past week and as a result, the Cardinal slugging star, has suffered a slump in his hitting, but he managed to connect enough times to remain above the 400 mark. Hornsby is out in front with 403 and has increased his lead in total bases to 246, his 153 hits including 26 doubles, 11 triples and 15 homers.

Zack Wheat, the veteran Dodge outfielder, also fell off with his stick work and is trailing Hornsby with 373, while Cuyler, of Pittsburgh, is in third place with 369, a few points in front of Ed Roush of the Reds, who is making rapid strides toward the top of the percentage ladder. Roush is hitting .357.

Jack Fournier, slugging first baseman of the Dodgers, was unable to add to string of 22 homers, but his mark is great enough to assure him the leadership for some time.

The base stealers have not been as active as usual. Max Carey, the fleet-footed Pirate, swiped one base, however, and widened the gap between himself and Cliff Heathcock, of the Cubs, who is trailing the Pittsburgher with 20. Carey has swiped 25.

Frank Frisch, star of the Giants infield, is setting a hot pace among the run getters, having registered 80 times, a gain of three over the previous week.

Other leading batters: Bressler, Cincinnati, 347; Young, New York, 342; Fournier, Brooklyn, 341; Hartnett, Chicago, 328; Blades, St. Louis, 327; Kelly, New York, 326.

The race for batting honors in the American Association has tightened up considerably during the past week, because of a slump by Neun, the Saints' slugger, and a spurt by Dressen, his teammate. Neun, however, continues to top the list with a percentage of .292, a loss of one point, while Dressen, who gained four points, is playing second fiddle with .385. Bunny Brief, Kansas City heavy hitter, who has been making it exceedingly interesting for the two Saints is still in third place with an average of .379, but Bunny is leading the League in total bases. His record is 256, a result of 163 hits, which include 43 doubles, 9 triples and 14 home runs. Neun, in addition to topping the hitters, is showing the class among the base stealers with 38 thefts, and not having a close rival for honors.

Christensen, of St. Paul, is running away with the scoring honors, having registered 118 times, while Neun has tallied 107 times.

The home run race is getting more interesting each week. The two Smiths, Elmer of Louisville and Earl of Minneapolis are out in front, Elmer leading with 18, and Earl having 16. Nicholson of Toledo, and Dressen are next with 15, and Brief has 14. Several others are trailing.

Other leading batters: Earl Smith

Minneapolis, 348; Allen, Indianapolis, 348; Christenbury, Indianapolis, 343; High, Columbus, 343; Murphy, Columbus, 342; Kirke, Minneapolis, 340; Bell, Milwaukee, 339

J. Smith of Atlanta and Carlyle of Memphis continue to set pace among the batters of the Southern Association. Smith, being in the lead with 388 and his Memphis rival trailing with 373. There is considerable drop between the leaders and Guyton of Little Rock and Burres of Atlanta, who are tied for third place honors with 354. There has been little change among the leaders of the various departments.

Paschal of Atlanta and Murray of Nashville have gone into a tie for the run scoring honors, each registering 103 times. Carlyle of Memphis increased his total base record to 256, while J. Anderson of Chattanooga failed to increase his home run record of his batters of Birmingham and Marriott of Mobile are running neck and neck in the base stealing department, the Birmingham flash being out in front with 36 thefts while the Mobile streak has swiped 35.

Other leading batters: D. Anderson, Chattanooga, 345; Paschal, Atlanta, 344; Barber of Little Rock, and Memphis, 340; Yaryan, Memphis, 339; D. Williams, Mobile, 338; Hawks, Nashville, 344.

Club Leivelt, manager of the Tulsa club, is giving his teammate, Lamb, a hot scare for the batting honors in the Western League. While Lamb suffered a drop of seven points from his mark of the previous week, his boss advanced two points and now is only two points away from the top. Lamb is occupying the place of honor with an average of .386, and Jack is hitting .384. Dunning of Wichita, with .375, is third. Washburn of Tulsa, who is leading the run getters with 122, is tied with his teammate Lamb for the total base honors, and is trailing Davis, another teammate for the home run honors. Davis has clouted 33 four baggers, while Washburn has 32. Smith of Wichita failed to increase his base stealing record, but continues to show the way with 36.

Other leading batters: Butler, Wichita, 368; O'Brien, Denver, 367; Miller, St. Joseph, 367; Davis, Tulsa, 359; Osborne, Omaha, 354; Cullop, Omaha, 349.

LONDON MADE TO FUNCTION WHILE CITY FATHERS PLAY

The thousands of London's municipal organizations will, in a week or two, be "working automatically." This is quite the usual thing during the August vacation season, when big concerns like the London County Council, the Metropolitan Water Board and all Borough Councils go into recess so that their administrators and thousands of subordinates may reconvene at the seaside.

The wheels of progress will not halt, however, because the various government bodies happen to be away from their desks. They took precautions weeks ago to issue the most elaborate instructions in order to keep the tramways working, to see that 5,000 tons of garbage was cleared away daily, and that the water supply for London's millions was not likely to fail. Tons of necessary stores were purchased and checks signed for wages bills which run into millions each week.

VIENNESE WOMEN ADAPT COLORED HANDKERCHIEFS

(By the Associated Press)

VIENNA—Women's linen handkerchiefs, in colors and fancy designs, are the vogue here just now. One of the most popular colors for handkerchief borders is apple green. Myrtle blue, also, is quite the rage and many azalia pink borders are seen in the streets and the fashionable cafes. These are all hem-stitched, of course.

All white handkerchiefs to be smart, say the modistes, must show a medallion of Brussels lace, bearing the initial or a quaint pattern reminding of the days of long ago. And then there are powder puffs to match—they are hidden within the folds of the handkerchiefs itself.

The underground freight railway system of Chicago is the largest of any city in the world.

ROFF

MISS GENEVA J. HEATHMAN, Reporter

C. C. Cooper of San Antonio, Texas, arrived this week. He will visit friends and relatives until first of September.

Alberta Bickel visited her father in Lawrence last week, returning home Wednesday.

J. M. Heathman has accepted a position as manager of the gin at Hickory.

Alberta Bickel visited her father in Lawrence last week, returning home Wednesday.

Mrs. A. F. Crumley is on the sick list this week.

Mrs. Menninger of Oklahoma City has been visiting in the home of her brother, Joe Robnett. She returned home Wednesday.

Miss Winnifred Alvis motored to Pauls Valley last week.

The Baptist Missionary ladies served dinner in town election day. They received a large sum of money. They also served ice cream and cake in the afternoon.

Mr. and Mrs. B. E. Braselton and son Kenneth left Wednesday morning for Weatherford, Texas, where they will visit Mr. Braselton's parents.

Misses Josephine Bullock, Gertrude Montgomery, Mrs. A. L. Bullock, Mrs. L. Crowder and two sons left Monday for Medicine Park, where they will spend two weeks. They are maids or honor and sponsors of the headquarters battery stationed here.

Dr. Jeffers of Ada was down this week to see Mrs. Brooks, who has been sick.

The Baptist meeting closed last week, with great results. The Sunday school has been doubled, and over fifty were converted. Twenty-five were baptized Sunday afternoon, near the sand plant, about thirty were added to the church.

Bro. Duncan of Wynnewood, who conducted the service was liked by everyone who heard him. Bro. Dickens of Blackwell, who conducted the choir, was a great booster, and did all with his power to get people to attend the services.

Mr. and Mrs. Clyde Welch and family motored to Hickory Monday, where they spent the day.

Mr. and Mrs. R. L. Palmer, of Ada, were down Sunday afternoon

visiting friends and relatives.

Mrs. Hunt left Sunday for Greenville, Texas. She was accompanied by Miss Pauline Givens who will visit with her for a while.

Mr. and Mrs. Lee Dowdy and daughter, Mrs. Irice returned Friday from Oklahoma City.

A. F. Bickel, who is in the mercantile business in Lawrence came home this week to visit his family. Misses Sybil and Cora Thacker and Velma Gray, motored to Sulphur Thursday, where they enjoyed a nice swim.

Mr. and Mrs. T. H. Smith motored to Horseshoe ranch Thursday where they met some friends.

Mr. Finley of Ada was down on business Thursday afternoon.

Kills Sixty Dogs - Can't Miss 'em

"Sixty illegitimate dogs were victims of the city firing squad last month, but you can't miss 'em in Ada"—that's what Mayor Somer Jones thinks of the canine situation in Ada.

The police have acted as executioners until the barrels of their rifles sizzle in the summer heat but the dog family seems to retain its foot hold in Ada.

Jones declared that July was a banner month in the campaign to rid the city of stray and dangerous dogs. Sixty more or less deserted canines were killed but police report that they are still confronted with numerous yelps from all parts of the city.

Determined not to hand over the city to the ravages of dangerous diseased canines, city policemen have taken a firm grip on the stock of their rifles and are out to shoot down every dog unprotected with city license.

The campaign to exterminate unlicensed dogs in Ada followed the report of local physicians that a number of rabies effected canines had been roaming the streets of the city in direct menace to the safety of the public.

The expression "bees' knees" and "snakes' hips" may be heard with frequency among the Indians of today.

There are more large cities in the United States than in any other country in the world.

SODA FOUNTAINS LEFT IDLE BY GUARD EXODUS

The exodus of Ada's young men to the annual National Guard Encampment at Fort Sill has effected one line of business in Ada if not others—the soda fountains.

Local watering places declare that business has shown a decided slump since the sleek youngsters who make drink fountains popular hang-outs have departed from the city.

The personnel of Ada's guard units made up to a large extent of clientele of popular drink quarters in Ada.

The exodus of the citizen soldiers to the guard encampment has also tended to cut down the visit of feminine soft drinkers to local drug stores and confectioneries.

The guard encampment and the departure of summer school students have combined to make a dent in the soda fountain business.

JOHNSTON COUNTY PRIMARY WINNERS

According to figures in the Tishomingo Capital-Democrat, Tom D. McKeown carried Johnston county by 68 votes, the figures being 1,679 to 1,611 for Hendon.

Joe S. Ratliff for state senator and J. F. Garner for representative won by substantial majorities.

Robert Wimshish carried the county for supreme court justice receiving 917 against 807 for J. W. Clark his nearest opponent.

The following were winners in the county races:

C. M. Crowell, county judge, E. J. Sutherland, county attorney, V. F. Eubanks, court clerk, Fred Hunt, sheriff, J. J. Enloe, county clerk, Walter Easterling, treasurer, M. I. Stokes, county supt, G. H. Tate, assessor.

Berlin Produces Freak Auto.

BERLIN.—German automobile manufacturers have great affection for freak designs in cars. One of the latest monstrosities to appear on the streets of Berlin is a motorcar with the motor in the rear and so constructed that the front end of the car bears appearance of the rear and of an ordinary car. In consequence the vehicle seems to be running wrong end first, and crowds stop in the street and laugh at the unusual craft.

MUTT AND JEFF—Touring and Broke—But They Should Worry.

PARDON THIS SEEMING FAMILIARITY, STRANGER, BUT I'M JEFF OF THE TEAM OF MUTT AND JEFF THAT'S ON A TRANSCONTINENTAL TOUR, AND WE'RE OUT OF OIL. CAN YOU SPARE A QUART?

I SUPPOSE SO!

AND TO MAKE A LONG STORY SHORT WE AIN'T GOT A DROP OF GAS, PARD! AND WE'RE DUE IN PORTLAND IN TWO HOURS! I'LL THANK YOU VERY PROFUSELY FOR A GALLON!

OH, WELL!

THESE WESTERNERS ARE HOSPITABLE PEOPLE, MUTT! I GOT OIL AND GAS FROM TWO AUTOISTS, AND THEN I WORKED A RANCHER FOR A SLICE OF HAM AND SOME EGGS!

YOU BUMMED ALL OF THAT STUFF? MY GOSH!

SOME MEAL! M-M! NOW IF I HAD A SMOKE TO TOP IT OFF I'D BE READY TO START FOR PORTLAND!

A SMOKE? THAT REMINDS ME!

LOOK! I BUMMED A PACK OF CIGARETTES, TOO! HAVE ONE!

Ada Escapes Death Tolls From Autoist

Ada has miraculously escaped the toll of the grim reaper, who rides behind the reckless steering wheel, thus far this year, reports from local undertaking establishments affirm.

According to all available information at the hands of proper authorities, no fatal accidents directly attributable to automobiles have been reported this year.

This record is considered remarkable by undertakers and authorities in view of the great number of accidents in Ada and on rural roads where autos have turned over, plunged into ditches and have been demolished through collisions or plunging over embankments.

While deaths have resulted from auto accidents, hospital files are dotted here and there with instances of recklessness or near disaster from auto accidents. Any number of minor collisions on the streets of Ada and in the country have been reported with occupants receiving only slight injuries to indicate their narrow escapes.

The record of this year is very different from the one of last year when three deaths resulted from accidents behind the auto wheel. Last year's record was established on what is thought to be a far less total of accidents than of this year.

Undertakers believe that the lack of fatal accidents this year from auto crashes is a direct result of a reported shortage of booze, which is declared to be a generous factor in many auto accidents.

Garages report that daily deliveries of battered autos show the increasing number of auto collisions on Ada streets. Many cars are junked owing to the dilapidated condition after being demolished.

HAROLD LLYDDIGRAMS

Why Worry?
Anticipation is worse than participation.

Morry never worries those who never worry.

Never worry worry and worry will never worry you.

Pack up your worries and throw them to the devil.

Worry is as worry does.

He who worries last worries least.

Worry and the world laughs at you. Laugh and you should worry.

Why worry troubles upon you when you can laugh troubles away.

'Tis greater to be laughed at than worried over.

A worry a day frets life away.

Sweat the worries.

Keeps your thoughts away from worry and worry will not think of you.

Every trouble comes to him who worries.

LOS ANGELES MAN MAKES RECORD FISH CAPTURE

(By the Associated Press)

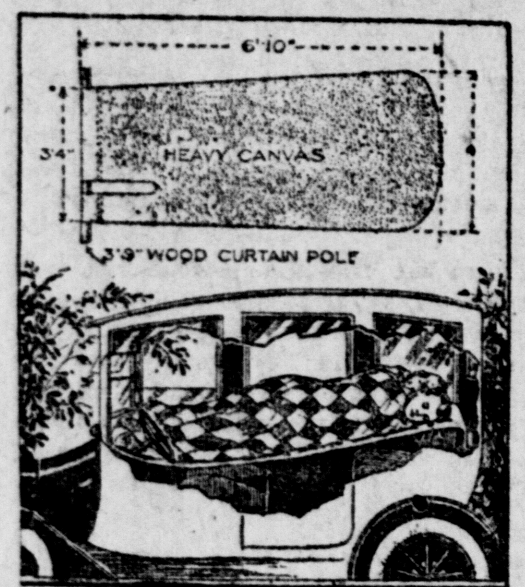

LOS ANGELES, Aug. 9.—H. J. Allen, Los Angeles business man, caught a 528 pound sword fish off the Catalina island. It is said to be the largest fish ever captured with rod and line. It is 12 feet, 6 inches in length, 4 feet 10 inches in girth, and his sword was 48 inches long. The fish knocked in the side of the boat and disabled the propeller in his final lunge.

A telescope weighing more than 3,000 pounds has been made by a British firm for the Russian government.

SLEEP IN SEDAN WHEN TRAVELING

Comfortable Stretcher Can
Be Easily Installed in
Any Light Car.

When traveling or camping it often becomes necessary to sleep in the car, and those who have done this will admit that it is not very comfortable unless special arrangements are made. In the case of a light car, a comfortable stretcher can easily be installed so that it is ready for use at any time. The back cushion is removed by taking out two wood screws at the bottom of the frame just above the tool box, and lifting upward with two fingers inserted in the finger holes at the center. This movement unhooks the back from the strap located at the center near the top, and allows the cushion to be removed without any difficulty, exposing a large storage space. A heavy strip of wood, which forms part of the body frame, extends across the back behind the cushion about 6 inches below the top. To the underside of this strip is nailed the wide end of a doubled piece of heavy canvas, cut according to the dimensions given in the detail. The double thickness of the material at this point assures ample strength for fastening.

Canvas Stretcher Installed in a Sedan
Adds Considerably to Traveler's Comfort.

At the other end of the canvas a slot is cut to pass over the steering-wheel post, and a 3-inch hem is made to take a length of 1 1/2-inch curtain pole, 3 feet 9 inches long. All seams are double-stitched with heavy thread.

Making Up Bed.

In making up this bed the folded canvas is taken from its storage place behind the cushion frame and brought forward over the lowered backs of the two front seats to the windshield. The lower portion of the windshield is opened outward and the curtain pole passed through the hem, the ends bearing against the outside of the window frame on each side, as shown in diagram. If proper tension is given, the canvas will not sag enough to touch the front seats and will be sufficiently high at the back so that no pillows are needed. During the day the canvas is folded and stored behind the back cushion, and the curtain pole placed under the rear seat.—Popular Mechanics Magazine.

Good Brakes Regarded as Accident Insurance

Motorists are advised to see that their brakes are always in the best of condition so that a quick stop can be made in case of emergency. Faulty brakes often cause accidents which otherwise could have been avoided, according to Dayton Keith of the Chicago Automobile Trade association.

In discussing the necessity of efficient braking power, Mr. Keith said: "Good brakes, always ready to bring about a quick stop are the best accident insurance a motorist can have. When a sleepy pedestrian carelessly steps out in front of a machine, or loses his head in the middle of the street, the motorist unconsciously does one thing—jams on his brakes."

"My advice to motorists is to inspect their brakes every two weeks—not less than once a month. Keep them tight enough so that they will grab hold the instant they are applied. Keep all connections well oiled. Don't allow your brakes to squeak; squeaky brakes are not safe and should be looked after immediately. If your lining is worn, have the brakes relined. Brake lining is much cheaper than accidents and lawsuits."

Overloading Is Harmful to All Trucks and Tires

Here is how a practical tire man explained why overloading a truck is a fault for which the owner or operator gives up profit.

Say the full pack of a soldier on the march weighs 40 pounds, the day's march is about 30 miles. Carrying 40 pounds this distance equals 1,200 pound-miles of work.

Now suppose the soldier was given a 60-pound pack. To do the same amount of pound-miles of work he need travel only 20 miles.

But it is doubtful if he could carry such a load when 40 pounds had already been proved to be his limit. It is just this way with truck tires. Properly loaded, they will do their job well. Overloaded, they soon break down.

Old Editions Bring High Prices

LONDON.—A first edition of Swift's "Gulliver's Travels," dated 1726, was sold at Sotheby's auction room recently to an American for \$3,625, a new high record for the edition. A first edition of Thackeray's "Vanity Fair" brought \$1,925.

Buy it—rent it—sell it—find it with a NEWS want ad.

FASHIONS HAVE CHANGED IN VARIOUS WAYS

Here's a picture that tells a complete story in itself. The autocar of 1899 was certainly a snappy thing, featured by the rope tires that were guaranteed not to suffer from puncture. Short wheel base was another bright idea while the motive power was hidden under the seat.

Valuable Points for Caring for New Auto

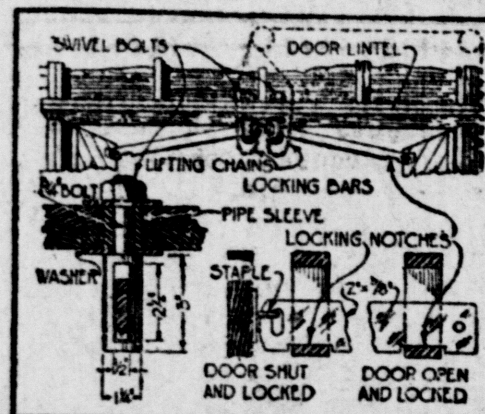

When your new car is delivered, remember that all working parts are new, fitted very tightly, and should be handled slowly until the car is run several hundred miles. It is advisable to drive slowly and carefully for the first 500 miles, giving such parts as motor bearings, pistons and various other parts fitted tightly a chance to wear in somewhat.

See that your car has been greased over thoroughly for oil and grease, particularly the motor, transmission, rear axle and all grease cups. The radiator should be flushed out and filled with clean water, as sediments of solder or other foreign matter sometimes remain in new radiators and may work into water pump or other working parts, causing damage.

Have the storage battery examined to note that same is properly charged and full enough of distilled water. Often new cars remain in storage before delivery is made, which would cause battery to run low from standing. If battery is used in this weakened condition it often happens the entire battery is ruined.

Automatic Fasteners to Hold Garage Doors Open

A simple device for holding garage doors open automatically is illustrated below. Two swivel bolts are made as detailed and fastened through the lintel or head jamb of the door. They are free to turn as the long locking bars pass through the slots in them. When the doors are opened the required distance, notches in the bars engage the bolts and act as a catch. The bars then will hold the doors open against the strongest wind.

Even in a High Wind the Heavy
Garage Doors Are Prevented Auto-
matically From Closing.

tance, notches in the bars engage the bolts and act as a catch. The bars then will hold the doors open against the strongest wind.

If the garage has a side entrance, the same bars also may be used as a lock. It is necessary merely to cut a second notch in each bar as shown, and enlarge the pivot hole to an oval. Chains or bell cords fastened to the ends of the bars and passed over pulleys provide convenient means for unlocking the doors.—F. N. C., in Popular Science Monthly.

Burning of Lights Will Cure Overcharging Load

Many motorists in driving along the road in the daytime have wondered why they would pass so many cars with the headlights turned on full. There is always an explanation for everything.

In touring, especially at speed, the battery is liable to be overcharged. This will cause the battery to heat, which is anything but good for it. The active material in the plates loosens and falls to the bottom of the cells, causing the battery to operate at reduced efficiency. Although practically every car's electrical system is fitted with an automatic cutoff to prevent such overheating, it is often the case that this device does not stand guard over the battery the way it should.

The safe way is, of course, to burn the lights—at least part of the time—when on a long drive. This helps to take the load off the battery and will prevent it from overheating. In view of this, perhaps when we see a motorist going along in the daytime with his lights burning we can consider that he is a wise driver instead of a careless individual who has forgotten to turn off the illumination the night before.

Alaska Has Regular Air Service.

ANCHORAGE, Alaska.—This is the latest Alaskan city to establish an aerial landing field. A smooth, level one has been provided, via blocks from the business section. A commercial aviation company is carrying on a regular passenger service to mining districts.

Flashing Lighthouses to Protect Motorists

Light signals have protected travel on land and sea for many years. Colored flashing signals will be installed this spring on the main national highways at crossroads, sharp curves and railroad crossings. The motorist of tomorrow will be guided by traffic signals that will safeguard danger points and minimize accidents.

AUTOMOBILE NOTES

No motor vehicle should be parked at the entrances to hotels, theaters, office buildings, large stores, and other buildings to which there is a great amount of coming and going.

The importance of efficient spark plugs cannot be estimated, says a well-known automobile engineer. Never wait until they miss fire and always buy the best quality obtainable.

Scale in the radiator can be overcome by mixing a little glycerin with the cooling water. The glycerin should be used in proportions of half a pint to each five gallons of water.

A slow leak in the tire valve plunger can be sometimes checked by applying a drop of oil in the valve stem. The oil partly dissolves the rubber, and causes it to anneal itself to an airtight joint.

Water which comes from a chalky district should not be used in the water circulation system because this results in deposits in the pipe and radiator. Distilled or well filtered rain water should be used.

Care should be exercised when dry cells are used for ignition purposes to keep them in a dry place, for any dampness will cause them to short circuit, and when this takes place it will be hard work starting the engine.

It is often difficult to start by hand the small screws such as are used in the magneto, speedometer, etc. An easy way around this difficulty is to hold the screws between the legs of a pair of calipers, a drawing compass or even in the slot of an ordinary steel pen. The screw is then driven home by the small screwdriver. The same method may be used in replacing small nuts located inaccessibly.

Young Donoghue Rides First Race in England Against Dad

SALISBURY, Eng.—Instead of the old familiar slogan of "Come on Steve" being heard on the race course here recently, a new cry of "Come on Pat" was heard in its place. The spectators were calling for Patrick Donoghue, son of Steve Donoghue, one of England's foremost jockeys, who was making his first appearance in public as a jockey.

Young Donoghue is only 13 years old and weighs seventy pounds and it is the intention of his father that Pat shall follow in his footsteps if he takes well to racing. In his first race the youngster rode against his father and finished fifth. Steve being beaten by a short head for the first place.

Varnish of New Car Is Helped by Cold Water

"The finish of many cars is literally ruined by the lack of washing, and the essential knowledge of knowing how to clean them," says J. P. Gibson, a California expert.

"The varnish of a new car is benefited and hardened by washing with clear cold water, but mud that is allowed to dry upon the body takes the oil from the varnish and leaves the finish mottled and streaky. Dirt is not the only enemy, for gases from the garage and even the atmosphere of some towns attack the finish of the car that is not frequently washed."

"Begin by cleaning the top. Take a good stiff brush and remove the dust, then either sponge it, or use a soft cloth with warm water and pure soap. A chamois kept especially for the purpose will tend to hasten the drying, and the top must not be folded until it is thoroughly dry."

"In cleaning the body, be sure to remove the nozzle of the hose and flow the water over every part of the body. This will serve to wash off most of the dust and also loosen the mud. In cases where the car is very dirty it is best to do this and then let it stand for a few minutes before going over it again with the hose. Then take a soft sponge and follow the hose over the body."

Open Windshield Ruins Complexion of Drivers

Woman automobile drivers frequently complain that driving "simply ruins the complexion," according to the proprietor of a local "beauty parlor." It is not the driving, nor the wind, nor the sun that ruins the complexion, according to the expert, but the fact that so many women insist upon driving with the upper panel of the windshield open.

"When a woman drives a car she is inclined to open the upper half of the shield for two reasons," she comments. "First she wants the breeze, and then sometimes the reflections in the glass bother her vision. But it is this very thing that ruins the skin of the face, for fine particles of road dust are driven by the direct wind into the pores."—Detroit Motor News.

Germany Taxes Horses.

BERLIN.—A horse tax is the latest in Germany and is imposed upon all except animals belonging to peasants. The tax varies according to the character and weight of the horses, the highest being about \$40 a year assessed against fancy coach horses and racing animals.
